

AGN. NO. _____

MOTION BY SUPERVISOR MICHAEL D. ANTONOVICH

AUGUST 23, 2011

NATIONAL CHILD AWARENESS MONTH

National Child Awareness Month is an effort led by Festival of Children Foundation to focus the attention of our Nation on the most critical issues facing children today.

Festival of Children Foundation exists to strengthen this network by providing much needed programs and services to its members, helping corporations and individuals find those opportunities where their efforts can make the most impact, and by shining a spotlight on the issues that effect children in America today.

I, THEREFORE, MOVE that the Board of Supervisors recognizes September 2011 as National Child Awareness Month and assists in efforts to raise awareness by encouraging the people of Los Angeles County to follow the national program by following the guiding principals outlined by the Festival of Children Foundation; Nurture one child; teach children about the importance of philanthropy; Find a children's cause and get involved.
